

Product Name :
Single Beam Atomic Absorption Spectrophotometer

Product Code :
ALABS-A96-002

Description :

Single Beam Atomic Absorption Spectrophotometer

- Microprocessor based, user friendly, menu driven, with printer interfaces
- Optional PC compatibility with RS 232C interface and MS
- Windows based software for data acquisition, processing, storage,
- Retrieval and interpretation of data
- Modes of operation include absorbance, emission, concentration & standard addition
- Quick change and easy alignment of hollow cathode lamps with standard warm-up-facility
- Precise vertical, horizontal and rotational alignment of titanium burner
- Self-diagnostics
