

Product Name :
Fully Automatic Atomic Absorption Spectrophotometer

Product Code :
ALABS-A96-003

Description :

Fully Automatic Atomic Absorption Spectrophotometer

Monochromator : The system is based on Abrasion corrected Czerny–Turner Grating with 1800 Lines/mm and optimized for both UV and Visible energy. Slit width is automatic from 0.1 to 2.0 nm selectable through PC.

Benefits Facility to switch from flame to Graphite within few Seconds without removing the air acetylene or N2 Burner. Detector :

Photo multiplier tube
