

Product Name :
Computerized Universal Testing Machine**Product Code :**
ALABS-A108-003**Description :****Computerized Universal Testing Machine****Technical Specifications :-**

- Automatic Data capture, storage & graphic display
Recording, storage, & retrieval of results & details
On line display of load & extension
- Fully automatic, on screen calculations based on the delivered data
- Output to digital printer of test data, test results & graphs
- Auto detection of over load
Over travel & specimen break, on detection of the above conditions
- Automatic switched off
- Load resolution – 0.01% of machine capacity for entire range

- Accurate and Users friendly software

Known For :-

- Made from quality metals
- Accurate functioning
- Dimensionally correct
- Reliable
- Durable
