

Product Name :
Microprocessor K.F. Moisture Titrator

Product Code :
ALABS-A112-003

Description :

Microprocessor K.F. Moisture Titrator

Measuring Range of moisture

Measuring Method Metric Titration method.

High Dispensing motorized dispensing system.

Resolution of Titrant Volume

Indication of Titrant Volume

Moisture Content calculation
(Automatic)

ppm :: (10 to 9999999)

mg H₂O : (0.00 to 999.99)

KF Titer Factor Automatic KF Titer Factor calculation facility

Visual and Audible Alarm

Displaying Pump Calibration

Adjustable (1 to 500 seconds)

Key Board soft touch membrane type

Storage 20 storage samples using FIFO memory

Display bright red seven segment display.

Clock clock with date & time display

Stirrer Magnetic stirrer with adjustable speed.

Reagent Bottle for KF Reagent, methanol & calcium chloride

External Serial printer interface available.

Power Supply 10% 50 Hz.

Dimension 175 mm

Accessories

Dual Platinum Electrode, Built-In Magnetic Stirrer, 250ml Bottle for Methanol, 10 Syringe, Adapter for KF Reservoir, Set of Dispenser Tubes, Bottle Container, Dust Cover, Titration Vessel with Teflon Cover, Teflon Coated Magnetic Stirring Capsule, 250 ml Reservoir
Bottle for KF Solution, 250 ml bottle for Calcium Chloride, Adapter for Methanol Reservoir Bottle, Set of Connecting Tubes, Main Lead, Instruction Manual
