

Product Name :
Skid Resistance Tester**Product Code :**
ALABS-A19-002ALTEC™**Description :****Skid Resistance Tester**

We are offering a wide range of **Skid Resistance Tester**. The tester consists of a spring loaded rubber slider mounted on a pendulum arm. The arm can be adjusted vertically from a rigid support column. The base has three adjustable feet so that the swing of the pendulum during the test moves through a truly circular path while operated directly on a road surface
