

Product Name :
Inclined Laminar Air Flow For Filling & Ceiling Machine**Product Code :**
ALABS-A115-202**Description :****Inclined Laminar Air Flow For Filling & Ceiling Machine**

For some applications it may not be ideal to use either a horizontal laminar flow hood or a vertical. For example, where an operator has to work on Ceiling / Filling Machine. This simple and portable unit produces a unidirectional flow. A bacteria free air space at an inclination over the work area. It is specially designed to minimize the risk of transferred contamination. the unit is self supported from the floor and totally isolated from the Ceiling / Filling machine.

Rest of the features are same as of LAMINAR .

FEATURES

-

Wooden/M.S Duley Power Coated /Stainless Steel Body.

-

HEPA Filter

-

Pre-Filter

-

Blower (Motor Blower Assembly)

-

U.V. Light

Fluorescent Lamp

Operating Switch

Pressure Gauge (Manometer)

Stainless Steel Table

-

High quality HEPA filter provides protection for the product (filtration efficiency of more than 99.97% at 0.3 micron.

-

Ultra-quiet noise level of not more than 65 dBA.

-

Durable and easy to clean stainless steel work.

Cock for gas or vacuum line.

Work area properly illuminated by diffused glare free fluorescent light.

OPTIONAL ACCESSORIES:-

-

Particle Dust Count-Validation at site.

-

Timer for U.V. Lights.

-

Speed Regulator

Caster Wheels.

•

Magnahelic Manometer.
