

Product Name :
Laminar Air Flow Hanging Mode

Product Code :
ALABS-A20-019

Description :

Laminar Air Flow Hanging Mode

For some applications it may not be ideal to use either a horizontal laminar flow hood or a vertical. For example, where an operator has to work on Ceiling / Filling machine . This simple and portable unit produces a unidirectional flow. A bacteria free air space at an inclination over the work area. It is specially designed to minimize the risk of transferred contamination. the unit is self supported from the floor and totally isolated from the Ceiling / Filling machine. Rest of the features are same as of LAMINAR .

FEATURES

- Wooden/M.S Duley Power Coated /Stainless Steel Body.

- HEPA Filter

-

Pre-Filter

-

Blower (Motor Blower Assembly)

-

U.V. Light

-

Fluorescent Lamp

-

Operating Switch

-
