Dental Caries Model**Product Code :**  
ALABS-A10-043**Description :****Dental Caries Model**

Dental caries model, 4x life size, 7 parts – This model consists of three teeth, seated in their sockets, that show the progressive deterioration of tooth structure by dental caries. The first tooth shows the caries in the enamel. In the second tooth, the caries invades the dentine. In the third tooth, the pathology affects the pulp, jeopardising the vitality of the tooth
