

Product Name :
Human Respiratory System With Magnified Alveolus

Product Code :
ALABS-A10-059

Description :

Human Respiratory System With Magnified Alveolus

Human Respiratory System with Magnified Alveolus – A relief model of the respiratory system, including the oronasal cavity, larynx and trachea, primary bronchi and bronchial tree. The upper respiratory tract is sectioned along the medial sagittal plane. An alveolus with blood vessels (about 150X life size) is shown with excellent internal detail.
