

Product Name :
Concrete Mixer (Laboratory Type)**Product Code :**
ALABS-A22-024**Description :****Concrete Mixer (Laboratory Type)**

The Concrete Mixers are available in two versions for Laboratory or field use. The field models are hand operated. This portable concrete mixer has rubber tyred wheels and a towing tongue so that it can be towed and moved around by hand. Its rotation is powered by single-phase electric motor or by hand. The lever allows the concrete to be tipped into a wheel-barrow mixing pan. The driving shaft is mounted on sealed ball bearing. The counter balanced drum swivels and tilt 360° for easy and complete discharge.
