

Product Name :
Heat Pump Simulator W- Computer**Product Code :**
ALABS-A191-001ALTEC™**Description :****Heat Pump Simulator W- Computer**

Description:-Each module's front panel displays both a complete schematic and pictorial of the system. All functions operate as on the actual equipment and present the student with realistic problem situations that would be very difficult for the instructor to create. Both mechanical and electrical problems are simulated. Pushbuttons are used to "replace" suspected defective parts. Simulator includes Laptop Computer.

Standard Features

- Schematic and pictorial test points
- Specification chart
- Improper equipment use warning
- Component isolate switch

- Service switch disconnect/connect
- Malfunction indication
- Windows Digital control system
