

Product Name :

Skin Model

Product Code :

ALABS-A202-004

**Description :****Skin Model**

This model is composed of 2 parts and shows the structure of the human skin in 3 dimensions. Anatomical structures are shown in detail, including the hair follicles, sebaceous glands, erector muscles, Pacinian corpuscles, nerves and blood vessels. The different layers of the skin are clearly defined. A portion of a hair shaft can be removed to show internal details.
