Product Name : Skin Model	Product Code : ALABS-A202-004
	ТМ

#### **Description :**

#### Skin Model

This model is composed of 2 parts and shows the structure of the human skin in 3 dimensions. Anatomical structures are shown in detail, including the hair follicles, sebaceous glands, erector muscles, Pacinian corpuscles, nerves and blood vessels. The different layers of the skin are clearly defined. A portion of a hair shaft can be removed to show internal details.
