

Product Name :
Scott Connection Trainer

Product Code :
ALABS-A35-008

A large, light gray watermark of the ALTEC logo is centered in the background of the main content area.

Description :

Scott Connection Trainer

- Stand alone operation
- Exclusive and attractive designed panel
- Designed by considering all the safety precautions
- Main and Teaser Transformers are shown separately
- On board high quality meters
- Two phase step down outputs available for waveforms observation on oscilloscope
- Provided with an extensive e-manual

Technical Specifications :

- Input : 415 V AC $\pm 10\%$, 50 Hz

- Main Transformer
- Input Winding : 0 - 200 V (50%) $\pm 10\%$, 50 Hz
- : 0 - 200 V (50%) $\pm 10\%$, 50 Hz
- Output Winding : 0 - 230 V $\pm 10\%$, 50 Hz
