

Product Name :
Scientific Laboratory Equipment Supplier

Product Code :
ALABS-A89-234

Description :

Scientific Laboratory Equipment Supplier

Microprocessor Based Furnace solutions offered is a type of furnace that finds application in heating blocks and turning them into other items. These Furnaces are considered fundamental blocks that are required to advance in survival mode and come with ceramic wool insulation (instead of brick insulation) that also results in their attaining light weight finish. With the outer casting made of double walled thick PCRC sheet that further comes painted with attractive stove enamel and heating elements wire (backed with high temperature cerwool insulation), all these and other constructional advantages allow avoiding loss of energy. Some of the other standard features of these furnaces includes temperature control unit comprising micro-processor based PID controller cum indicator, working power of 220/230Volts AC or 400/440 Volts AC and muffle sizes (W x D x H) of 225 x 100 x 100 mm (1.0 KW), 250 x 125 x 125 mm (2.0 KW), 300 x 125 x 125 mm(2.5 KW), 300 x 150 x 150 mm(3.5 KW), 300 x 200 x 200 mm(4.0 KW), 350 x 175 x 125 mm(4.0 KW), 375 x 175 x 175 mm(4.5 KW), 325 x 150 x 200 mm(4.5 KW) and 475 x 175 x 175 mm(5.0 KW).
