

**Product Name:** 

**Bell Crank Lever** 

Product Code: ALABS-A167-082

## **Description:**

## **Bell Crank Lever**

- To experimentally determine the reaction force of a bell-crank lever to an applied load
- To confirm leverage ratio effect; and take moments about a pivot.
- To be designed around a simple 90 degree bell crank lever
- A range of 5 ratios from 1 to 5 to measure the load and effort.
- Weight hanger and weights supplied.
- An Instruction manual for student and lecturer provided
- Comprehensive technical manual
- · Set of slotted weights included
