

**Product Name :**  
Cross Flow Heat Exchanger**Product Code :**  
ALABS-A104-316**Description :****Cross Flow Heat Exchanger**

- A small-scale cross flow heat exchanger system for use with the Heat Exchanger Service unit to teach the fundamentals concepts of heat transfer.
- Some parts in the heat exchanger such as probes and axial fan can be easily removed for cleaning.
- The enables variation of the parameters involved in the cross flow exchange process and therefore a complete analysis of the phenomena.
- K-type thermocouples measure the inlet and outlet water and air temperatures, as well as permitting the connection.
- The air mass flow rate is derived using an air velocity sensor.
- The mounted on a PVC base plate which is designed to be installed on the plinth of the Heat Exchanger Unit without the need for tools.
- A comprehensive instruction manual is included.
