

Product Name :
Unsteady State Heat Transfer Unit

Product Code :
ALABS-A104-348

Description :

Unsteady State Heat Transfer Unit

- To determine film heat transfer coefficient between the medium in which body is heated.
- To determine film heat transfer coefficient between the medium in which body is cooled.

Experimental Setup :

- Heater Assembly.
- Aluminum Test Cylinder.
- Fully insulated hot bath assembly.
- Set of thermocouples.

Control Panel:

- 12 Channel Digital
- Temperature Indicator

- Main's On/Off Switch.
- Voltmeter :0 – 250 V.
- Ammeter :0 – 15 A.

Space Required:

- 1.5 m.(L)x 1.0 m(W) table top.

Service Required:

- 230 v Ac Supply 50 Hz
- Weight : @ 70 Kg
- Unsteady State Heat Transfer Unit
