

**Product Name :**  
Series Liquid Manometer**Product Code :**  
ALABS-A104-498**Description :****Series Liquid Manometer**

A range of general purpose laboratory manometers using liquid displacement to measure differential pressure.

**Capabilities:**

- Low cost and easy to use instruments
- Wide range of pressures accommodated using different manometer fluids

**Description:**

A range of manometers measuring differential water pressures up to approximately 12.5m H<sub>2</sub>O. Scales are graduated in 1mm divisions.

- 1 metre scale differential open water manometer
- 1 metre scale differential pressurised water manometer (the air space above the tubes can be

pressurised with the pump supplied)

- 1 metre scale differential water over Mercury manometer
- 500mm scale differential water over Mercury manometer
- 500mm scale differential kerosene over water manometer
