

Product Name :
Pitot Tube Demonstrator**Product Code :**
ALABS-A104-519**Description :****Pitot Tube Demonstrator**

- Pitot tube with scale to determine the position within the pipe diameter
- Includes pressurised water manometer with scale length 500mm
- Approximate dimensions 1.0m x 0.55m x 0.23m
- Set of connecting tubes
- Instruction manual

Technical Description:

The Pitot Tube can be moved across the cross-section of the pipe in order to measure the dynamic head profile. The position of the measuring tip relative to the wall of the pipe can be read on a scale. The Pitot Tube is connected to a pressurised water manometer to measure the differential head across the Pitot tube.
