

Product Name :
Analytical Balance

Product Code :
ALABS-A6-008

Description :

Analytical Balance

Analytical Balance

Description:

- Analytical Balance
- External calibration weight – 100 g for analytical
- RS232/V24 bi-directional interface

- GLP (Good Laboratory Practice) print format
- Electronic anti-theft code
- Precision electromagnetic force compensation technology
- Die-cast aluminum housing
- Upgrading via Internet
- Bright Vacuum Fluorescent Display standard, LCD optional
- IP65 protection against ingress of dust and water available
- Variety of measurement units
- Piece-counting
- Percent weighing
- Density determination

Specification:

-

Capacity: 120g

-

Readability: 0.1mg

- Repeatability: 0.1mg
- Linearity: 0.2 mg

-

Pan size: 80 x 3.1 mm

- Response Time: 4s
- Minimum sample weight according to USP
