

Product Name :
Magnetic Levitation Control Trainer**Product Code :**
EEATC023**Description :**

The Magnetic Levitation System (MLS) is composed of an LED light source, an electromagnet, an optoelectronic sensor, amplifier module, an analogue control module, data acquisition card, and a steel ball, etc. This system synthesizes main experimental contents in control area and satisfies many experiment requirements such as automatic control, control theory, and feedback system, etc, which are suitable for Graduate or Post Graduate course designs and algorithm research as well.
