Product Name :

Electricity, Electromagnetism & Electrolysis Training System

Product Code :

EEATC045

Description :

Electricity, Electromagnetism and Electrolysis Trainer is a versatile training system that contains different components mounted on a plastic base with connecting terminals. This allows the teachers to design custom experiments as per curriculum requirement. This training system covers topics related to Electricity, Electromagnetism and Electrolysis. Students can understand the laws of electricity and electromagnetism in a simple manner. A wide range of experiments are included with the training system.
