Product Name :
Electricity & Magnetism Trainer

Product Code :
EEATC047

Description :

is a comprehensive and self-contained system suitable for tuition and experimentation with electricity circuits. All necessary equipments for electricity circuit experiments such as power supply, function generator, measuring instruments are installed on the main unit. The 8 modules cover a wide variety of essential topics in the field of electricity circuit. It is indeed a time and cost saving system for both students and researcher interested in training, developing and testing circuit prototypes.
