**Product Name :**  
Microcontroller Training System

**Product Code :**  
EEATC055

**Description :**

is a basic Microcontroller Training System. This system contains on board devices like A/D converter, D/A converter, Dot Matrix Displays, Matrix keypad, 7-Segment, DIP switches and LEDs for monitoring and 840 tie point bread board for custom applications. Trainer contains the device programmer and device mounting option. This enables students to perform experiments on 8051 microcontroller platform.
