Product Name :
Microcontroller Training System

Product Code :
EEATC055

Description :

is a basic Microcontroller Training System. This system contains on
board devices like A/D converter, D/A converter, Dot Matrix Displays,
Matrix keypad, 7-Segment, DIP switches and LEDs for monitoring and 840
tie point bread board for custom applications. Trainer contains the
device programmer and device mounting option. This enables students to
perform experiments on 8051 microcontroller platform.
