Product Name :

Universal Microcontroller Trainer (AVR/PIC/8051)

Product Code :

EEATC057

Description :

is a universal Microcontroller Training System. This system contains stand alone peripheral devices like Graphical LCD, Keypad, DC Motor, Stepper Motor, etc. Trainer motherboard contains all the peripheral devices, device programmer and device mounting option. This enables students to perform experiments on major microcontroller platforms namely AVR, PIC and 8051.
