**Product Name :**  
CVSD Transceiver Trainer

**Product Code :**  
EEATC080

**Description :**

The Continuously Variable Slope Delta Modulator (CVSD) is a simple alternative to more complex conventional conversion technique, like PCM, in systems requiring digital communication of analog signals. The CVSD A-D conversion is well suited to the requirements of digital communications and is an economically efficient means of digitizing analog inputs for transmission. This trainer explores the functionality of CVSD Encoding / Decoding technique. All required sectioned are provided on board like, clock generator, audio generator, microphone interface, low pass filter, audio output and ac amplifier.
