

**Product Name :**  
Braun Electroscope**Product Code :**  
ALTECEDULABA0237**Description :****Braun Electroscope**

This rugged, sensitive electroscope can accept various accessories to change its capacitance. A sensitive aluminium vane is balanced in a vertical position on a metal support which is insulated from its base. The vane is easily observed and projected on a chalkboard (Light Source, not included) on which an arbitrary scale has been marked. Height without attachments is about 9".
