

Product Name :
Precision Projection Electroscope**Product Code :**
ALTECEDULABA0238**Description :****Precision Projection Electroscope**

Project your measurements onto a screen for a large group to see with this well-made electroscope. Its cylindrical metal case has two parallel plane glass windows, both removable, through which you can shine a light for projection. Close fittings and quality materials insulate the leaf system so it stays charged for several days in dry weather. The case is mounted on a heavy metal base. The Precision Projection Electroscope comes complete.
