

Product Name :
Mounted Motor for Solar Cell**Product Code :**
ALTECEDULABA0245**Description :****Mounted Motor for Solar Cell**

This is a small low consumption electric motor on a base specially designed to run directly from the output of the solar cell and to illustrate the direct conversion of light energy to electrical and hence to mechanical. The motor spindle carries a simple pulley, 16 mm. diameter, and is capable of raising a mass of at least 4g. when powered by the solar cell.
