

Product Name :
Programmable DC Power Supply (0-36VDC/3AMPS)**Product Code :**
ALTECEDULABA0303**Description :****Programmable DC Power Supply (0-36VDC/3AMPS)**

- High stabilized programmable voltage/current/power outputs
- Menu operation by front keypad and rotary switch
- Large LCD display with backlit
- Output continuously adjustable output
- Maximum current/power output presetable
- Constant current/voltage/power output mode
- Over current, voltage and over power protection
- Memory: Store & recall setup data for different applications
- Series/parallel connections
- Interface to computer
- Safety design
