

Product Name :
Solar System Model

Product Code :
ALTECEDULABA0367

Description :

Solar System Model

To demonstrate the overall shape of the solar system, the main movement of the planets and moon and the shape and direction of their orbits. This small apparatus has the planets from Mercury to Saturn on revolving arms and the moon free to rotate around the earth. The larger planets are bigger than the smaller ones but this model is not to scale. Made of rigid plastic with diagram
