

Product Name :
Power Supply Continuously

Product Code :
ALABS-A37-004

Description :

Power Supply Continuously

Gives continuously variable a.c. and d.c. outputs upto 10 A for a.c. and 8 A for d.c. A meter is provided to indicate both a.c. and d.c. voltages. An internal fuse is provided for input and a resettable cut-out for output. With detachable 1.5 metre mains lead.

Specifications :

Input: 230-240 V a.c. 50/60 Hz
Output: 0-250 V a.c. and unsmoothed full wave rectified d.c.
Output current: a.c.: 8 A maximum d.c.
Voltage Selection: Continuously variable transformer operated by a large knob on front panel.
Metering: d.c. output voltages by a moving coil meter with selector switch to select a.c. or d.c.
Overcurrent protection: Internal glass fuselink. Output is protected by a resettable cut-out.
Output terminals: 6mm sockets.
