

**Product Name :**  
Organic Molecular Model Building Kit**Product Code :**  
ALTECEDULABB0866**Description :****Organic Molecular Model Building Kit**

Innovatively designed for your convenience. This kit offers you the building of organic molecular models for almost all the important structure covering each and every topic. The main speciality is the design of our atoms with molded prong to provide maneuverability for rotation. You can show the electron clouds. Separate tubes provided for covalent & multiple bonds. Hence, these models are way ahead of the ball & stick type. With this kit, you can built plenty of models.

Saturated Hydrocarbons, unsaturated hydrocarbons, functional groups : Alkanes, Alkenes, Alkynes, Alcohols, Aldehydes & Ketones, Benzene & its Derivatives, etc., and many more.

Contents : Carbon, Oxygen, Nitrogen, Chlorine, Sulphur, Phosphorous, Hydrogen-atoms, Covalent bond Hydrogen bonds & multiple Bonds (Total components about 200 Nos., packed in a suitable plastic case. A teacher's guide/instruction manual with full details on how to make is also provided.
