

Product Name :
Molecular Orbital Set, Organic Structures

Product Code :
ALTECEDULABB0873

Description :

Molecular Orbital Set, Organic Structures

The set comprising of sufficient parts to make four organic molecular orbital models depicting sigma bonding orbitals, pi bonding orbitals, concept of hybridization and delocalization. Consists of

- Carbon Atoms - 12
- Hydrogen Atoms - 18
- Carbon-Carbon (oval shaped) Sigma Bonds - 9
- Carbon-Hydrogen (pear shaped) Sigma Bonds - 18
- Pi Bonds - 9(21 pink and 21 purple pieces)
