

Product Name :
Engg. Chemistry Charts**Product Code :**
ALTECEDULABB0877**Description :****Engg. Chemistry Charts**

1. Corrosion
2. Phase Diagram Of One Component Systems
3. Phase Diagram Of Two Component Systems
4. Boiler Problems
5. Softening Of Water
6. Desalination Of Water
7. Corrosion Control
8. Additives For Lubricants
9. Physical Properties Of Lubricants
10. Chemical Properties Of Lubricants
11. Polymer Composites

12. Titrimetric Methods Of Analysis

1. Determination Of Alkalinity Of Water
2. Determination Of Hardness By EDTA Method
3. Determination Of Viscosity By Redwood Viscometer
4. Determination Of Flash Point By Pensky Martin Apparatus
5. Preparation Of Urea Formaldehyde Resin
6. Preparation Of Phenol Formaldehyde Resin
7. Treatment Of Water For Domestic Use
8. Types Of Mechanism Of Corrosion
9. Types Of Electrochemical Corrosion
