General Charts**Product Code :**
ALTECEDULABB0880

The image shows a colorful, long-form periodic table of elements. The title at the top reads "MODERN PERIODIC TABLE OF THE ELEMENTS LONG FORM". The table is organized into groups and periods, with elements color-coded by their chemical families. The elements are arranged in a grid, with the first row starting with Hydrogen (H) and the last row ending with Oganesson (Og). The table includes all known elements up to the 7th period and the lanthanide and actinide series.

Description :**General Charts**

1. Periodic Tables Of The Elements
