

Product Name :
Senior Rotary Microtome**Product Code :**
ALTECEDULABC0935**Description :****Senior Rotary Microtome**

This microtome is the most precise and uniform sectioning equipment for Medical Colleges, Universities, Research Laboratories, Hospitals and Educational Institutions. The internal mechanism and knife holder rests on a heavy-duty and rigid base to render a shake proof operation. A protective aluminum cover is hinged to the base and swings back so that the interior parts are completely exposed for convenient setting, cleaning, lubrication etc.
