

Product Name :
Typical Flower, LS**Product Code :**
ALTECEDULABC1056**Description :****Typical Flower, LS**

Using a longitudinal section, this colorful plaque provides a detailed introduction to the structure and reproduction of a flowering plant.

1. Structures depicted include the petal, stem, pistil and stamen.
2. Another one is dissected to reveal pollen.
3. Pistil provides a view of the ovary, ovules, and a pollen tube.
4. Double fertilization process is illustrated.
