

Product Name :
Strength of Materials (HSM) Trainers

Product Code :
ALTECEDULABC1226

A large, light gray watermark of the ALTEC logo is centered in the main content area of the page.

Description :

Strength of Materials (HSM) Trainers

Pendulum Impact Tester (4J)

Advanced Beam Testing Apparatus

Torsion of Bars

Extension of Springs

Compression of Springs

Curved Bars

Combined Bending and Torsion

Critical condition of Struts

Torsion of a Spiral Spring

Electrical Resistance Strain Gauge

Rotating Fatigue Machine

Unsymmetrical Cantilever Apparatus

Alternating Bending Fatigue Machine

Torsion Testing Machine (30Nm)

Thin Cylinder Apparatus

Creep Testing Machine

Torsion and Deflection Testing Apparatus

Polariscope

Torsion Testing Machine (200Nm)

Pendulum Impact Tester (25J)

Torsion Testing Machine (100Nm)

Transmitted Light Polariscope

Round Diaphragm Apparatus

Rockwell/Brinell combined Hardness Tester

Vickers Hardness Tester

Extension and Compression of Springs

Universal Materials Tester (20kN)
